

Lisandro Rocha Tau

Frontend Engineer specialized in React, Next.js, and modern web architectures. Focused on building performant, scalable user interfaces with a clean and maintainable codebase.

Relevant Experience

Frontend Developer, **PrimeIT**

March 2024 - Present

- Built and launched a new web platform for a major Spanish car rental company using Next.js and TailwindCSS.
- Maintained and optimized 3+ enterprise-level applications, improving load times and accessibility compliance. Ensured cross-browser compatibility and high accessibility standards.
- Ensured cross-browser support and implemented Jest + React Testing Library for full test coverage.

Frontend Developer, **PlattesGroup**

Sept 2021 - Feb 2024

- Developed and maintained a real estate platform frontend using Next.js and TailwindCSS.
- Built a DMS (Document Management System) with React and Vite, fully integrated with Zoho Creator.
- Engineered a custom accounting tool with Zoho Creator and DATEV integration.
- Developed and maintained internal .NET APIs in C#, improving data processing reliability.
- Designed and managed relational databases with SQL Server (SSMS), ensuring data integrity and performance.

Junior Full Stack Developer, **Juniper**

June - August 2021

- Identified and fixed security vulnerabilities (e.g. SQL injection).
- Helped transition legacy codebase from VB to C#.
- Maintained system stability and backward compatibility.

Education

Bachelor of Science in Computer Science

Feb 2022

Balearic Islands University (UIB)

Technology Specialization

Jun 2018

IES Marratxí High School

Personal Projects

E-Commerce website

Built with Next.js, TailwindCSS, and MongoDB for easy online shopping and performance. Focused on UX and responsiveness.

Musicfy - Spotify Clone

Built with Astro/React. Focused on UX, TypeScript type safety, and performance. Data base made in PostgreSQL with Supabase.

Skills

Programming Languages

TypeScript, HTML, CSS, C#, Python

Libraries & Frameworks

React, Next.js, Tailwind CSS, Astro, Jest, React Testing Library, Formik, NextAuth.js, Framer Motion

Tools & Platforms

Git, GitHub, Netlify, Vercel, WordPress, Webpack, Vite, MongoDB, Storybook, Figma, Trello, Notion

Languages

- Spanish: Native
- English: Fluent (B2+)
- German: Basic (A1) – Currently improving

Interests

Problem-solving through programming challenges, strategy-based games enthusiast, and passionate crossfiter.
